

Community Pillar Residence Inn Winston-Salem

August 2009

The Residence Inn Winston-Salem supported Feeding America, a national organization formerly known as Second Harvest, with a month long food drive in August 2009. The team members collected 394 canned goods, not including the additional non-perishable food that guests brought in. The team worked hard to inform guests about the initiative and many guests contributed. Bob Sullivan, Executive Vice President, Operations for Small Hotels at Noble, made an additional company contribution by authorizing 10% off the room rate for guests who contributed.

This property Community Pillar activity supports the Wellbeing and Health cornerstones.
